RAINFOREST ALLIANCE DECLARATION OF COMPLIANCE

With this statement Molenbergnatie N.V. declares to act in conformance with the Rainforest Alliance Sustainable Agriculture Standard

“According to Article 1.1.9 of the Standard 2025, version 1.4, our activities as a storage operator and repackaging subcontractor — operating as a storage facility without processing and without acquiring ownership of the goods, and located in a country with no medium- to high-risk level regarding such social issues — are considered to be out of the certification scope, and therefore we are not required to obtain certification.”	
Without prejudice to the above, we wish to emphasize that we fully endorse the objectives of the Rainforest Alliance and are committed to their principles. This commitment is supported by our internal policies and reinforced through our compliance with other sustainability and social certification schemes.”
